## METHYL CHLORIDE

### Chemical overview

|              |                                                                                                                                                     |
|--------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| CAS #        | 74-87-3                                                                                                                                             |
| EINECS #     | 200-817-4                                                                                                                                           |
| APPLICATIONS | Blowing Agents, Buffering Agents, Chemical Synthesis, Industrial Chemicals, Refrigerants, Blowing Agents & Propellants, Catalysts, Polymers, Resins |
| SYNONYMS     | Chloromethane; Cloruro de metilo                                                                                                                    |
| FORMULA      | CH <sub>3</sub> Cl                                                                                                                                  |
| CATEGORIES   | Industrial Chemicals, Refrigerants; Blowing Agents & Propellants                                                                                    |
